# What's **TRAFFIC SCANNER**® Smart LPR

**TRAFFIC SCANNER**® Smart LPR is an App for Android systems capable of transforming a common smartphone into a powerful mobile number plate reading gate always ready to use.

Con **TRAFFIC SCANNER**® Smart LPR it is possible, using the integrated phone camera, to frame and recognize vehicles license plates in real time, automatically send them to the **TRAFFIC SCANNER**® server and receive any reports relating to the identified license plates.

It's very simple to use: open the App on your smartphone, frame the license plate to be recognized and then wait few seconds for any notification back from the central server

**TRAFFIC SCANNER**® Smart LPR represents an innovation concerning license plate recognition systems on the move, introducing an unbeatable operational simplicity.

You can try free **TRAFFIC SCANNER**® Smart LPR on your Android smartphone sending an email request to: [commerciale@trafficscanner.it](mailto:commerciale@trafficscanner.it)
